UNITED STATES GOVERNMENT

Memorandum

TO : Director of Communications

DATE: 7 November 1966

FROM : Chief, Engineering Staff, OC

SUBJECT: Monthly Report for October 1966

25X1A2g

The [redacted] prototype system was successfully operationally evaluated in the field which resulted in an all out effort at home to provide an operational system. The Lab felt the brunt of the work and during this period ten [redacted] field units were fabricated. In addition, seven aircraft relay systems (RU-700) were assembled, one base station radio terminal (AS-700) and two programmed ASR's (PP-700) were assembled. The equipment is being packed for air shipment as of 31 October.

Our construction/renovation planning effort continued with [redacted] receiving considerable attention. The Langley renovation plans were finalized and RE&CD/OL is meeting with GSA on the A&E.

According to current information, the shielded enclosure installations scheduling (with completion of [redacted] on 26 October) is as follows: 25X1A6a
